

Notes re 1925 Hike Routes

The routes walked are shown by a solid marked track line, confirmed by the surviving 1925 scout field notes, and a dotted track line is the unknown, until other documents come to light.

A "C" on the maps is an overnight camp site used during the hikes.

The "X", in a square is the CORROBOREE GROUND. The final destination for all of the hikers.

There were 40 different Patrols on the hikes and not all the routes are illustrated.
